September 2021 Issue: 1.*

Caption

Hello, I'm Rosemarie Simmons the NRF Communication Person here at Henvey Inlet First Nation, if your living within the community we probably have met along the way. I am here to introduce our New Publication called HIFN, Information Hwy: September 2021, 1st Issue,. This will happen four times through a year and it will be generally in or around the end of September, the second week of December 2021, March 2022 and June 2022.

This year the booklet is filled with New Infrastructure that has taken place or will be taking place. In 2020/2021/2022, there was our new Maintenance and Storage building, the new Gas Bar, New docks at the Marina with new docking slips 80+, trailer park has 32 new lots. This past summer we had some delays of course the Pandemic was raging in its 3rd phase and so we went with the flow of life. You may have noticed that our clean up in the community was done differently due to Covid- 19 .

Through September 2021 we started working on Pickerel River Road, this is a major project all the culverts are being replaced right now and the road has to be dug out in most places because of the way the roads were made in the past with logs under the roadway. This project will not be completed till next year, we also have the round house to be completed through 2022.

This booklet, I hope to utilize within our Archiving project that is in process and will be a work in process for sometime.

This booklet will also be on our Henvey Inlet Facebook Page under the heading of HIFN, Information Hwy: I hope you enjoy .

See you next time.

Building*

Marine Office  
Henvey Inlet First Nation

This is the New Office for staff working at the Marina, this summer we have had delays opening our new lots at the Trailer park but everything should be in place for the Summer of 2022.

Next you will see the new laundry facility, with showers and washrooms.

New Docking Facilities and Trailer Lots

New Laundry Facility  
with washrooms and  
showers.

Lots at the Marina ready for next season

The New Transfer Station being completed...

Road construction has started on Pickerel River Road, all the culverts are being replaced. Years ago construction crews used logs for the road bed. That will have to be replaced. We don't expect to be finished till Spring/Summer of 2022.

Water Main Break

This is the HIFN Helipad for any emergencies within the community...

Work being done on the New Transfer Station

## Henvey Inlet First Nation Childrens Sweat

Stan Moses; Cultural Coordinator at Henvey Inlet FN;

“In the last few years I have been working with Angel Dubois with the kids in the After School Programs. The children were interest in having a childrens sweat. They wanted to know all about the purpose of the sweat lodge ceremony.

Supple saplings, stones (the grandfathers), are heated and water is poured over them creating steam, which helps the participants to sweat. To encourage a sweating out of toxins & negative energy that creates disorder and inbalance in life. In this way, the sweat lodge ceremony cleanses the body mind and soul”.

Arelyn Telic also was there to offer help and guidance to the participants, he is with Mental Wellness 69/400.

Henvey Inlet First Nation  
Every Child Matters

*Henvey Inlet participated on July 1st 2021  
with remember the Children that went to  
Residential School and never returned  
home.*
