

Completed Projects:

The current C & C continue to work diligently, in unison, collectively with community input, on various projects which have benefitted our community. We all have our unique areas of expertise and focus, which further enhances our goals and objectives.

- * Completed the new paved main Pickerel River Rd.
- * Purchase of Moose Lake Lodge for future community use
- * New ADR land acquired for future use by community.
- * New housing development in the works

VISION:
 To continue working for our people in a fair and unbiased manner, in collaboration with our members and Chief & Council

*Chi-Miigwetch to,
 Lyndy McQuabbie
 and
 Debbie Newton
 for taking the time to
 nominate me for Band Council.*

"Regardless of the results on March 25th, 2023, I will always encourage everyone to continue with making our community a safe and healthy place to raise our children."

Miigwetch for your support!

RE-ELECT
Brenda
CONTIN for
COUNCIL
 THE RIGHT EXPERIENCE,
 THE RIGHT CHOICE!

Our future is rooted in our history, language, culture, beliefs and ceremonies and in who we are as the Anishnawbek of Henvey & F.R. # 13.

ABOUT ME:

I am a wife, mother, daughter, grandmother, Auntie and customary caregiver of 2 small children.

I spent my childhood in our community of Henvey Inlet, followed by relocating to Toronto for my teen years. I obtained my Nursing education while I was residing in Toronto with my now 2 grown children. I was a single parent living on a limited income while pursuing my college/university education.

I have been working for and with First Nation communities for over 25 years, providing Public Health nursing services to families, elders, and individuals.

In conclusion of this brief bio I would like to add that I am appreciative and honored to have represented you and your families for the last 6 terms as Councillor covering various portfolios.

2022/23 Years in Review and Progressing Forward...

"We shall continue to persevere even in the face of adversity and support one another as these new challenges are placed upon us..."

COVID-19 Pandemic:

These last few years have been one in which we have all had to recognize our strengths and ability to persevere. Almost all of us have had to deal with COVID at some point but we have all come out of it with no untoward effects.

Methadone Clinic:

This relatively new endeavor has been running now for almost a year. Our Health Portfolio Councillor has worked diligently to get this program up and running and in conjunction with the nurses and the OATC, we were successful in getting this harm reduction program into our community.

Back up Generators: It had come to our attention that we have been experiencing power outages lasting sometimes longer than 2 days. In the winter this can be hazardous for families/individuals due to our extremely cold temperatures. The idea of putting in generators for members to have during these power outages was something we thought would benefit them during the winter months.

RENAMING OF SETTLERS ROAD:

As most of you are aware, MTO took it upon themselves to give the old hwy a name. Unfortunately, they did not give it a name that was agreeable to Henvey and its members. We are currently looking for ideas for the naming of this roadway.
