

HOUSING

Our community is growing and that means having housing that is affordable to our members. This is probably one of the most important concerns for our community. We cannot immediately accommodate everyone, so the housing list is extensive with members requesting homes. I feel we can build homes every year so families can have a future in Henvey Inlet First Nation.

EDUCATION

Another concern for our First Nation, post secondary has been a priority, except the cost of living has gone up so much that our students struggle to survive. I would like to see an increase in student academic payments for future school years. I wish to support the post secondary students with getting the increased funding.

I have lived on the Rez most of my life raising my 5 children. Most of my kids are grown up and one has her own family.

I love my community and its people, and I see our community growing and prospering. While living here I have grown into a respectful caring person. Being a father to my own children has taught me family values. I am the luckiest dad to look after my kids as they grow into respectful loving young adults.

BIO

Ahnii, I am Irvin Contin, a Grandfather Elder of Henvey Inlet First Nation with previous experience as a Councillor of Henvey Inlet First Nation.

WINDFARM DISTRIBUTION

Our members get a payment of \$500 per month equaling to \$1500.00 quarterly which is not a whole lot especially with the cost of living getting so high. I would like to see these payments increased. I believe it's either this year or next year when we vote on a new distribution payment. I will support for an increase in our windfarm distribution payments.

TRANSPARENCY

Transparency is operating in such a way that it is easy for others to see what actions are performed. Transparency means openness with communication and accountability to community members. I will bring this to the community.
