

ABOUT ME

I was born in Sudbury and moved to Henvey Inlet when I was four. I grew up in the Community with my family and, attended Britt Public School. I participated in every event Henvey offered and continued to participate even after we moved to Sudbury. I work full-time running our family business, but I jump at any chance to come back to my roots in Henvey Inlet. I am outgoing, ambitious, and, I don't run from adversity. I believe that we should all have differing opinions but also, share a common vision. I enjoy stock trading and finding different ways to make money work for me. I feel as though we all have the ability to find financial freedom without having to pay someone to tell us how to do it.

We can't change
the direction of the
wind, but we can
adjust the sails.

MATTHEW GREGORY NEWTON

Niswi Nodin

MY VISION

I want to help our people grow economically by giving them the tools they need to have financial independence. I want to help our people create a Community where a lack of food and housing is no longer a worry and mental health and healing is supported by the community as a whole. I hope to create equality amongst our members. I think it's important to include everyone in decisions that impact our Community and keep them in the loop as change is happening.

MY GOALS

- 01 Create an equal opportunity platform for all members to have their voices heard.
- 02 Continue to advocate for our rights as Indigenous people.
- 03 To be open and honest with our Community Members.
- 04 Create a Youth Council to encourage and empower our future leaders for when it becomes their turn.

MY MISSION

I am not going to make promises I can't keep but I am going to promise that the time spent as Councillor will not be time wasted. I intend to address core issues around creating self sustainability in the Community by encouraging and supporting small businesses as well as accessing funding to create more housing. I also would like to bring awareness to our youth and their role in the future leadership of Henvey Inlet. Now is the time to create positive changes and shift our views from the now, to the future.
